DIRECTORS' REPORT For the three month period ended 30 September, 2013

To our valued Unit Holders,

On behalf of the Board of Directors, I am pleased to present the Financial Statements of Alfalah GHP Islamic Fund (AGIF) for quarter ended 30 September, 2013. The Financial Statements of the Schemes prepared by the Management Company present true and fair view of the state of affairs of the Schemes and results of their operations, cash flows and movement in unit holders' funds.

Economic Review

Inflation which had receded to its lowest level since rebasing of CPI in May saw strong resurgence in July-13, clocking in at 8.26%. Inflation picked up primarily on account of low base effect of last year, increased food prices because of Ramadan and newer taxes from FY14 budget. The trend continued in the month of Aug-13 with inflation picking up at 8.54% which also pushed SBP to increase its reverse repo rate from 9% to 9.5%. Although, CPI eased again in the month of Sep-13, it is likely to move up amid recent increase in domestic power tariffs and higher petroleum product prices. Furthermore, slippages in local currency shall also keep inflationary pressures intact for now.

The current account meanwhile, registered a deficit of USD 575mn in Aug-13, taking 2MFY14 deficit to USD 632mn, on the back of USD 1.6bn trade deficit in Aug-13 (highest since Oct-08). Meanwhile, remittances declined by 12% M/M and 2% Y/Y during the same period. Increase in C/A deficit on lower remittances highlights the growing dependence on remittances to plug in the trade deficit.

The new IMF program has kept the focus on resolving energy crisis along with achieving fiscal consolidation. Growth shall be the biggest casualty in near term as private sector remains reluctant to make new investments amid energy shortages. Meanwhile, in order to curtail fiscal deficit, government spending may also remain weak keeping economy in low growth ambit.

Capital Markets Review

Equities Review

The KSE-100 had a roller coaster ride in 1QFY14 with the index peaking at 23,776 points in Jul-13, followed by a 4.9% fall taking it to 22,621 points by 1st week of Aug. The Index then recovered to 23,687 points by mid August, before crashing again to 21,724 points (down 8.3%), by early Sep. It recovered once more to 23,639 points, but could not sustain this level and crashed again to 21,832 points by quarter end. In 1QFY14, Pakistan's macro situation deteriorated as foreign exchanges reserves dwindled, inflation resurged and currency came under heavy pressure. Expectations of reversal in monetary cycle and the increase in discount rate back to 9.5% also adversely influenced equity market. Moreover, re-entry into the IMF program called for stabilization at the cost of economic growth.

MONEY MARKET REVIEW

The impact of reversal of monetary stance was observed in the money market yields where the yields on longer end were adjusted upwards. The yield on 10Yr PIB touched 13% mark; gaining approx 2% over the quarter but key interest remained in the shorter end. The treasuries' auction bidding pattern also remained skewed towards shorter maturities indicating the reversal in interest rate trend as beginning of the monetary tightening. The rising inflationary pressure coupled with higher government budgetary borrowing and weakening PKR-USD parity played a key role in re-shaping of yield curve. The result of PIB auction towards the end of the quarter also indicated possible further tightening during the year as the SBP increased the cutoff rates on 3 year, 5 year and 10 year bonds. The new cutoff stood at 11.69%, 12.15%, and 12.59% for 3, 5, and 10 years bonds respectively.

Going forward, the shorter end of the yield curve will continue to stay the preferred investment segment. Inflation will most likely continue its upwards trajectory over the rest of the year, creating space for further 50-100bps hike in policy rate during FY14.

Fund Operations and Performance

In 1QFY14, AGIF earned a return of -0.82% while its benchmark earned a return of 0.93% during the same period.

AGIF returns suffered as the fund's investments in small cap stocks lagged the broader market during the period, resulting in underperformance of the fund during the period.

Going forward, we expect the market to move in a range, with above par performance expected in Oil, IPPs, Cements and Textiles. We have thus restructured the fund's portfolio to align it more closely with its benchmark.

Future Outlook

The optimism linked to the elections held in May powered the KSE-100 to record highs. However, post elections, the market has become range bound with thin volumes. The macro outlook remains cautious, with rapid monetary expansion in 1QFY14 bound to fuel inflation going forward, which will result in an expected 100-150 bps rise in the benchmark discount rate during the current fiscal year.

On the plus side, corporate earnings, especially in the Oil, Cements, Textiles, and IPP sectors are expected to show good growth. Even though the broader market may not perform as vigorously as in the previous year, nevertheless, we expect the market to provide good opportunities in selected scripts.

Acknowledgement

The Directors express their gratitude to the Securities and Exchange Commission of Pakistan for its valuable support, assistance, and guidance. The Board also thanks the employees of the Management Company and the Trustee for their dedication and hard work and the unit holders for their confidence in the Management.

7. SALES TAX ON MANAGEMENT FEE

During the current period, an amount of Rs. 0.35 million (30 September 2012: Rs. 0.29 million) was charged on account of sales tax on management fee levied through Sindh Sales Tax on Services Act, 2011.

8. FEDERAL EXCISE DUTY ON MANAGEMENT FEE

During the current year, an amount of Rs.0.30 million (30 September: Rs. Nil) was charged on account of Federal Excise Duty on Asset Management Services levied through finance bill 2013.

9. CONTINGENCIES AND COMMITMENTS

There are no contingencies and commitments as at 30 September 2013.

10. PROVISION FOR WORKERS' WELFARE FUND

The Finance Act, 2008 introduced an amendment to the Workers' Welfare Fund Ordinance, 1971 (WWF Ordinance). As a result of this amendment it may be construed that all Collective Investment Schemes / mutual funds (CISs) whose income exceeds Rs.0.5 million in a tax year, have been brought within the scope of the WWF Ordinance, thus rendering them liable to pay contribution to WWF at the rate of two percent of their accounting or taxable income, whichever is higher. In this regard, a constitutional petition has been filed by certain CISs through their trustees in the Honourable High Court of Sindh (SHC), challenging the applicability of WWF to the CISs, which is pending adjudication.

In August 2011, the Lahore High Court (LHC) issued a judgment in response to a petition in similar case whereby the amendments introduced in WWF Ordinance through Finance Acts 2006 and 2008 have been declared unconstitutional and therefore struck down. However, during March 2013, the SHC larger bench issued a judgment in response to various petitions in similar cases whereby the amendments introduced in the Workers' Welfare Fund Ordinance, 1971 through Finance Acts 2006 and 2008 respectively (Money Bills) have been declared constitutional and overruled a single-member Lahore High Court (LHC) bench judgment issued in August 2011.

MUFAP's legal counsel is of the view that the stay granted to mutual funds in respect of recovery of WWF remains intact and the constitutional petition filed by the Mutual Funds to challenge the Workers Welfare Fund contribution has not been affected by the Judgment passed by the larger bench of SHC.

However, keeping in view the uncertainty on the applicability of WWF to mutual fund, the management company as a matter of prudence has decided to continue to maintain the provision for WWF amounting to Rs. Nil (30 June 2013: Rs. 7.0415) up to 30 September 2013. If the same were not made the NAV per unit would be higher by Rs. Nil.

11. TAXATION

The Fund's income is exempt from Income Tax as per clause (99) of part I of the Second Schedule of the Income Tax Ordinance, 2001 subject to the condition that not less than 90% of the accounting income for the year as reduced by capital gains whether realized or unrealized is distributed amongst the unit holders. Furthermore, as per regulation 63 of the Non-Banking Finance Companies and Notified Entities Regulations, 2008, the Fund is required to distribute 90% of the net accounting income other than unrealized capital gains / loss to the unit holders. The Management Company intends to distribute sufficient accounting income of the Fund for the year ended 30 June 2014 in order to comply with the above stated clause to enjoy the tax exemption. Accordingly, no tax provision has been made in these financial statements for the year ended 30 September 2013.

13. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties in an arm's length transaction.

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the balance sheet date. The estimated fair value of all other financial assets and liabilities is considered not significantly different from book value.

The following table shows financial instruments recognised at fair value, analysed between those whose fair value is based on:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

	30 June 2013			
	Level 1	Level 2	Level 3	Total
Financial assets 'at fair value through profit or loss'	----- (Rupees in '000) -----			
- Equity securities	250,225	-	-	250,225
	<u>250,225</u>	<u>-</u>	<u>-</u>	<u>250,225</u>

There have been no transfers to or from above levels during the period.

In accordance with Circular No. 33 of 2012 issued by SECP, all traded debt securities are valued on the basis of their volume weighted average price during the last 15 days while thinly traded and non traded debt securities are valued using a valuation methodology devised by MUFAP which use variables including yields on government securities, Karachi Inter Bank Offer Rates and credit ratings. As the valuation techniques use inputs from observable market data, these securities are classified as Level 2. Rates for non-performing securities, however, are not quoted by MUFAP and are valued using provisioning criteria prescribed by the abovementioned circular and are hence classified as Level 3.

Therefore, default on installment amounts by investee companies results in transfer into Level 3 while subsequent classification of a defaulting security as performing will result in transfer from Level 3 to Level 2.
